## PROJECTS

<b>Portfolio website</b> 🔗 Implemented a website that showcases all the different Projects I worked on, Used NodeJS, HTML, and CSS.	08/2024
<b>ASMEs Dashboard</b> Developed a dashboard that provides a comprehensive overview of key metrics and participant data, featuring diverse visualizations such as participant counts, sector involvement, and geographic distribution. The dashboard includes interactive filters, enabling users to refine data by criteria like country, sector, and demographic information. This setup facilitates dynamic data exploration and analysis, empowering users to gain insights and make informed decisions with ease.	07/2024 – 09/2024
<b>InvestGateway</b> Comprehensive app marketplace, streamlining the sale and purchase of businesses by offering listings, matching buyers with suitable businesses, facilitating secure communication, presenting franchise opportunities, and potentially providing financing information.	10/2023 – 05/2024

## CERTIFICATES

- Meta Front-End Developer 🔗
